1) The reasons for having chosen this journal to discuss what is presented in the article:

Invited by the editorial board

2) The link between the article and the journal if any:

This article deals with Open Education Resources as one of main items within the journal scope of Open education

3) The contribution of the article:

The article takes up the historical fundamentals of open access and describes a concrete example for putting them into practice through a project policy led by IFEF, an OIF institution, for the design, distribution and reuse of OER.

4) A positioning in relation to the alignment of the text:

N/A

5) The author's perspective (his/her values in relation to education and research at the time of submitting the article):

This proposal outlines our commitment to gender equality through open education and open educational resources. It is part of a broader work strategy including the training of trainers, the production and dissemination of OER and the mobilization of indigenous actors in French-speaking countries to struggle against gender stereotypes in education and in the society.

6) The author's choice of an appropriate CC license if different from CC BY SA:
