

Supplemental Figures for:

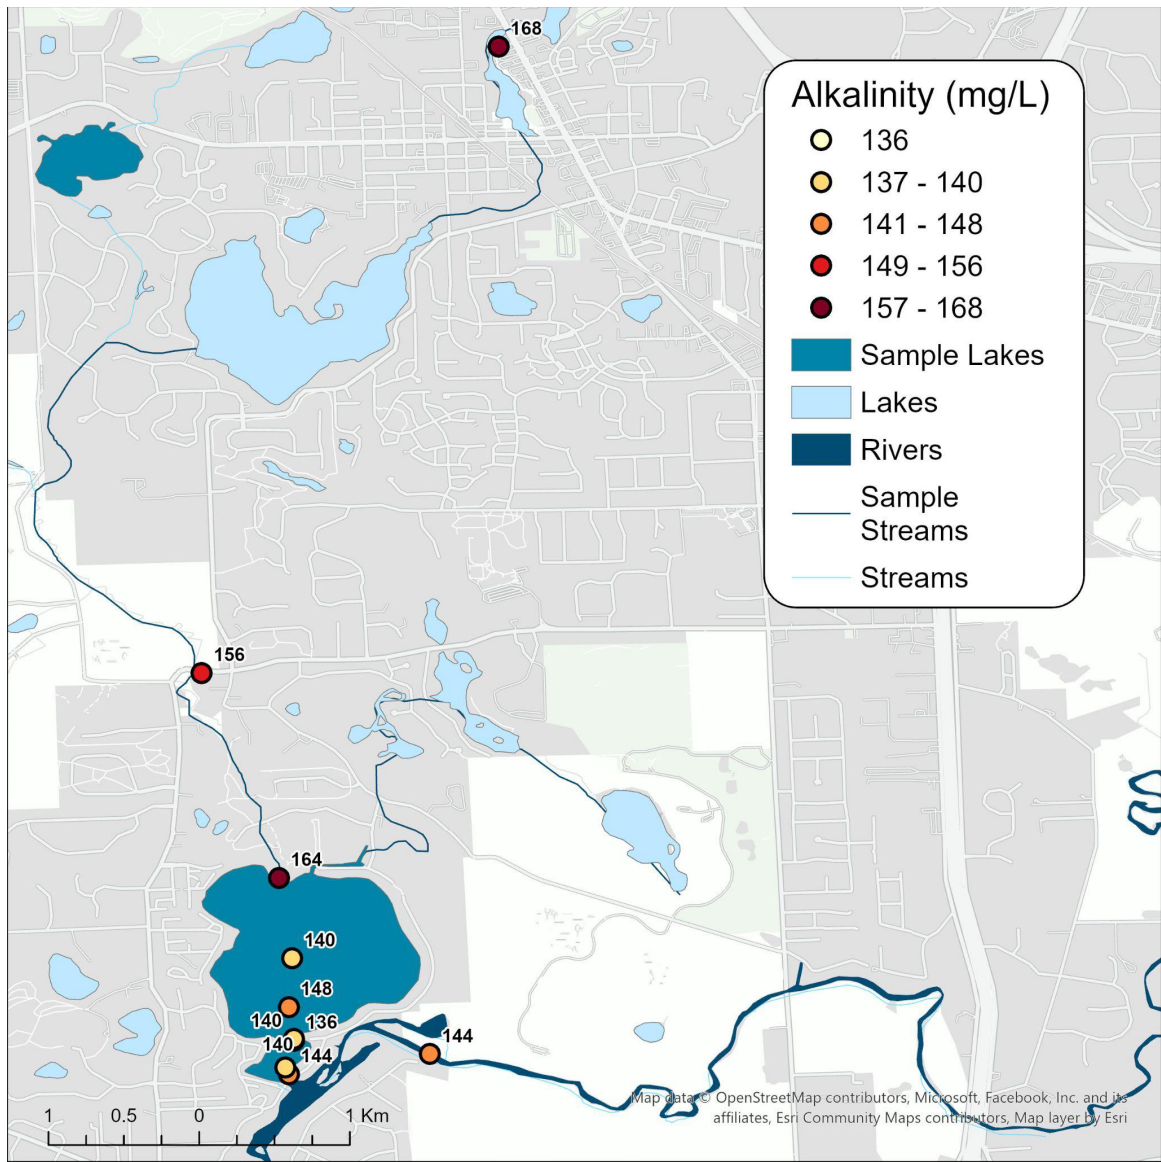

**Constraining the Formation Conditions of Modern Pisoids at Ore Lake, Michigan**

Ryleigh Landstra and Ian Winkelstern

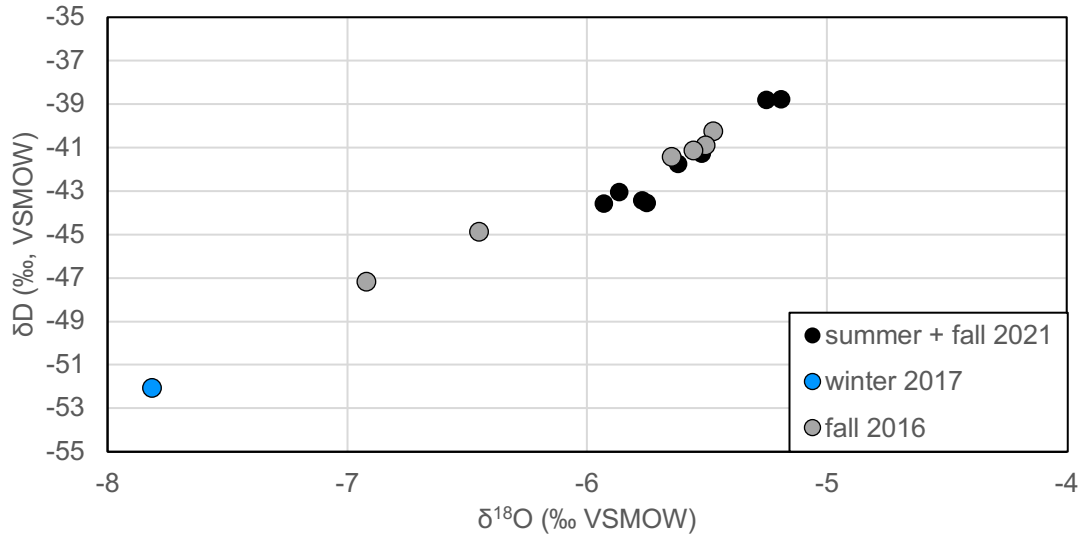

<https://doi.org/10.57035/journals/sdk.2023.e11.1179>

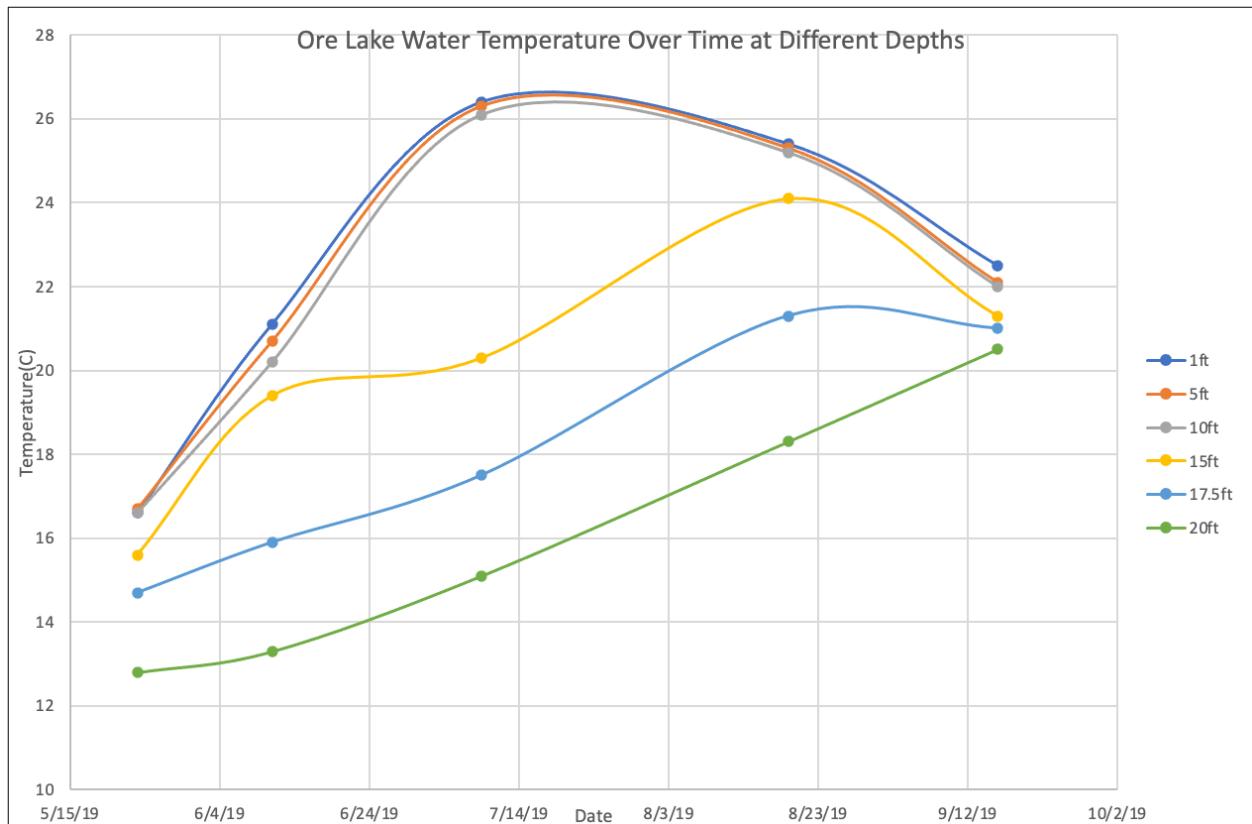

**Supplemental 1:** All sampling locations in and around Ore Lake. Collected from 2017 – 2021.

**Supplemental 2:** Map of recent alkalinity data. Note general decrease in values from north to south.

**Supplemental 3:** Oxygen and hydrogen stable isotope data from all water samples. Measured relative to Vienna Standard Mean Ocean Water.

**Supplemental 4:** Temperature data from surface and depth samples in Ore Lake in 2019. Collected by Cooperative Lakes Monitoring Program, 2019.
